

PLAN COMPARISON CHART	LITE	STANDARD	PRO
GENERAL			
Submit trip generation data to ITE via online form	✓	✓	✓
Site administrator account to manage company-wide users (for multi users)	✓	✓	✓
Collaborate and access projects on the cloud server		✓	✓
Share projects with other contacts		✓	✓
DATA / BEST PRACTICES			
Trip Generation Manual Data - 9 th edition	✓	✓	✓
Trip Generation Manual Data - 8 th edition	✓	✓	✓
Internal capture based on ITE-TGH 3 rd edition & NCHRP Report 684 *NEW		✓	✓
Vehicle to person trips conversion based on ITE-TGH 3 rd edition *NEW		✓	✓
Support for ITE recommended methods in trip generation projects		✓	✓
Pass-by and Diverted Trip% data from ITE-TGH 2 nd & 3 rd edition		✓	✓
GRAPH LOOKUP			
Search trip generation graphs, rates and equations by land use code	✓	✓	✓
Graphical display of IV size and average vehicle trip ends	✓	✓	✓
Generate new curves, rates and equations	✓	✓	✓
View graphs by counted modes *New!	✓	✓	✓
View graphs, rates and equations for private data sets			✓
Create and print graphs for private data sets (including combined & filtered)			✓
Overlay and combine private data sets with ITE-TGM data			✓
PROJECT ANALYSIS - TRIP GENERATION			
Setup multiple similar land uses *NEW!		✓	✓
Assign data source to land use separately *NEW!		✓	✓
Develop scenario based analysis *NEW!		✓	✓
Define custom time period *NEW!		✓	✓
Enhanced my project dashboard *NEW!		✓	✓
Support for user defined modes *NEW!		✓	✓
Generate person & multi-modal trips *NEW!		✓	✓
Estimation of internal trips by mode and land use *NEW!		✓	✓
Multimodal internal & external trips estimation *NEW!		✓	✓
Multimodal trips reduction (pass-by, linked, transferred and diverted trips) *NEW!		✓	✓
Off-road and on-road trips separation *NEW!		✓	✓
Period analysis (old version)		✓	✓
Driveway analysis (old version)		✓	✓
Import/export trip generation for PTV Vistro (old version)		✓	✓
Generate trip generation report *NEW		✓	✓
PROJECTS ANALYSIS- NETWORK ANALYSIS			
Create study area and road network with easy-to-use webgraphics tools *NEW!			✓
Identify analysis points and estimate travel demand *NEW!			✓
Analyze existing, opening and background conditions *NEW!			✓
Automatic and manual trip distribution *NEW!			✓
Automatic route finding and trip assignment *NEW!			✓
Display of intersection turning volumes in circle diagrams (in pces) *NEW!			✓
Display of waypoint trips (in persons) *NEW!			✓

Generate network analysis report *NEW!			✓
PRIVATE DATA SETS			
Allow users to enter/upload own trip generation data sets			✓
Define new land use codes and independent variables			✓
Plot dataset in graphical format			✓
Generate average rates, fitted curve equations and directional splits			✓
Add new time periods *New!			✓
Create data sets with counted modes, mode share and occupancy data *New!			✓
USER INTERFACE			
Easy project navigation with previous and next buttons *New!		✓	✓
Panel and tab based view for input and output *New!		✓	✓
Copy projects and scenarios		✓	✓
Graphical inputs in network analysis *New!			✓
